

The Bluesbeat

EXPRESS BIO

The Bluesbeat is a Blues - Rhythm & Blues band who plays his own compositions and music tracks from blues musicians less played (Duke Robillard, Doyle Bramhall, Ben Harper, Albert King etc.) as well as more famous ones (E. Clapton, Buddy Guy, SR. Vaughan etc.)

Created early 2009, **the Bluesbeat** gathers experienced musicians who all came from bands playing this music since many years. So they benefit from a very large live experience.

The style is oriented Rhythm & Blues with tracks grooving and blues with sound very roots.

The Bluesbeat proposes sets in acoustic version (with Dobro, ...acoustic guitars) and electric with **controlled sound and volume.**

It's a point of honour for **the Bluesbeat** to play live exactly like the MP3 sound, which you'll find in demo on the website www.thebluesbeat.ch

No surprise – what you hear on this website is what you'll have on stage!
